MEKEME BEDJOKO MICHEL LEGRAND

Douala, Cameroon 00000

(M) 237 695 451 586 (E) m.mekeme@yahoo.com

SUMMARY

BSc in Software Engineering with strong skills in front-end and back-end development. Experienced in building scalable, user-friendly applications using JavaScript (ES6+, React, Next.js) and Java (Spring Boot, REST APIs). Skilled in Test-Driven Development, Git, CI/CD, and cloud-based deployment. Open to remote work or relocation for the right opportunity.

EXPERIENCE

Freelance

Mobile Software Developer

I developed a mobile ride-hailing application specifically designed for the Cameroonian market to address challenges in local transportation. The app allows users to book rides, track drivers in real time using GPS, and view estimated fares before confirming a trip. I handled both the front-end and back-end development, implementing features such as secure user authentication, trip history, and a driver-passenger matching system.

Port Autonome de Kribi

Software Engineer Intern

Acquired practical knowledge as an intern at the Kribi Port Authority, focusing on application software development for the Java platform, as well as database management using JDBC and PostgreSQL. Learnt
Implementing skills in developing effective and extendable solutions.

Pari Mutual Urban Camerounaise

Software Engineer Intern

On working at Pari Mutuel Urbain Camerounaise, I developed important skills in Back-End Web Development, Front-End Development, and mobile app designing using figma. These skills allowed me to contribute to the development in design and implementation of applications both web and mobile-based-applications at the front end and system functionality at the back.

La Caisse Nationale de Prévoyance Sociale

Software Engineer Intern

This internship at Caisse Nationale de Prévoyance Sociale allowed me to develop skills in Oracle Database management and work with Oracle SQL Developer, which efficiently enabled interactions with databases, the creation and execution of SQL queries, and managing data in support of data driven operations.

SKILLS

Back-End: Java 8+,Spring Boot API, Microservices, Node.js

Tools: Git, SVN, Docker Kubernetes, Azure Cloud CI/CD Pipelines

Databases: PostgreSQL, MySQL

Front-End: HTML5, CSS3, JavaScript (ES6+), TypeScript, ReactJS, Material UI, Bootstrap 4, Next.js, React

EDUCATION

Catholic University Institute of Buea (CUIB)

Bachelor of Science in Software Engineering

College Alfred Saker

GCE Advance Level

College Alfred Saker

GCE Ordinary Level

PROJECTS

Developed a ride-sharing mobile app with real-time GPS, fare estimation, and secure login using React Native and Firebase.

Built a social media growth website that helps users schedule posts and track engagement to boost their online presence.

ACHIEVEMENTS & AWARDS

Placed 4th in a national robotics competition as part of a team project focused on innovation and automation.

Won 2nd place in two hackathons organized by Orange Cameroon and the Port Authority of Kribi, showcasing tech solutions.
